Morris, Pat (OPP)

From: Morris, Pat (OPP)
Sent: 11-Feb-22 2:55 PM
To: Palermo, Catherine R. (OPP); Ingalls, Trish (OPP); Johnston, Steve (OPP); Marlin, Karen (OPP)
Cc: Walker, Jim (OPP); Barclay, Brian (OPP)
Subject: Police Chiefs' Question

All
I have been asked a series of 5 questions in relation to pending events specific to 4 locations – Ottawa, Toronto, Ambassador Bridge, Blue Water Bridge. I provided the 5 questions below utilizing Ottawa as an example. I called OPS Supt Mark Patterson and referred to my doc from Jeff and Janna to provide a response. Can you guys have a look at this and tell me your thoughts – it is not completely thought out.

1. What is the total number of trucks in Ottawa currently?
    a. 400 tranport in trucks
2. What is the number projected for Saturday?
    a. 11 convoys from Q – apprx – 575 trucks
    b. Convoys from Sask - ?
    c. Convoy from Lindsay
    d. Convoy from Toronto – u/k
    e. Convoy from Moncton

3. What is the total number of persons protesting in Ottawa currently?
    a. 1430 – 30 PH, 150 in surrounding streets (Red Zone);
    b. RCGT Park – currently on Bank and Slater protest (Pat King) apprx 100 persons
4. What is the number projected for Saturday?
    a. Counter Demo – Lansdowne – u/k
    b. Counter Demo – City Hall to Police Station
    c. Montreal – 4000 persons on social media?

5. What is the element of Extremism engaged, if any?
    a. Depends – FARFADAA – 5-10;
    b. DIAGALON – 5 persons – uk
    c. [redacted] - Support ?;

Subject: OPP - POIB - HENDON - OPERATIONAL PREPAREDNESS for TORONTO (February 12, 2022)

Sent on behalf of Supt. Pat Morris...

HENDON Partners

The potential of the protest in Toronto tomorrow is a significant priority. TPS and the OPP are the primary clients that need the relevant information – TPS for the event in totality and the OPP for our Highway Safety Division and Queens Park Detachment. Currently, there are several staging or rallying points that have been obtained. These locations will serve as "points of departure" for the Toronto event. We need to ensure the following:

1. Acquire a fulsome list of these locations (listed below);
2. Ensure that POJ members are assigned to attend and acquire information/intelligence at these rallying points – numbers, vehicles, intentions, signage, attitude, etc;
    a. We will follow up to ascertain contacts for those assigned;
3. All information to be provided to these contact points via email:
    a. IOC@torontopolice.on.ca
    b. OPP.Project.Hendon@opp.ca
    c. Provide a Subject line of TORONTO EVENT 12 FEB
4. Members of the OPP and TPS will be in the TPS – Intelligence Operation Center (IOC) for these events so that this will ensure that clients will acquire the information quickly;
5. The phone number for the TPS IOC – 416-808-3590 and staffed 24/7; and
6. Lastly – if the POJ members can follow/surveil the convoys to the entrance to Toronto to provide accurate information for the event it would be very much appreciated.

Morris, Pat (OPP)

Morris, Pat (OPP)

Subject:	Civil Unrest - Moving Forward
Location:	My Office
Start:	Mon 14/02/22 8:00 AM
End:	Mon 14/02/22 9:00 AM
Recurrence:	(none)
Meeting Status:	Meeting organizer
Organizer:	Morris, Pat (OPP)
Required Attendees:	Morris, Pat (OPP); Barclay, Brian (OPP); Walker, Jim (OPP); Fournier, Robert (OPP); Wilks, Travis (OPP); Clarke, Kirsten (OPP); Palermo, Catherine R. (OPP); Ingalls, Trish (OPP)
Optional Attendees:	Stewart, Allison (OPP)

Hello everyone
A lot has transpired over the weekend and a lot of people have been exceedingly busy. I am having a meeting to discuss moving forward:

1. Accessing Information – Covert On-Line Success
    a. International Possibilities
2. CI potential
    a. No More Lockdowns
    b. Local Groups
3. UCO Opportunities – creative approaches?
4. Arrests and Interviews
5. Any Ongoing Investigations – OPS, RCMP, CSIS?
6. FBI Assistance – there was lots of American support
7. Financial Intelligence
8. I2 Chart Tasking

Hello Everyone,

First, I apologize if I have not included everyone relevant to the discussion.

We in OPP Intelligence are shifting from the frenetic pace of collecting and disseminating information and producing intelligence on multiple places impacted by the recent civil unrest. We will still focus on areas of critical importance and areas where critical infrastructure is impacted. To that end, we are focused on assisting OPS and working to gather strategic intelligence of impactful events. We would, however, like to move toward a focus on what is a solidifying leadership entity that we believe is directing this civil unrest directly (i.e. Ottawa) and/or indirectly as in call-outs for simultaneous actions and amplifying impact upon police resources. This is, at minimum, provincial but perhaps national, with international implications given the 'copy-cat' actions globally.

To that end, I wold like to have a meeting – face-to-face if possible to discuss a few matters (I have already discussed this with OPP Intelligence leaders and Supt Patterson from OPS:

1. **Roles and Responsibilities** of our Organizations and Personnel moving forward in Ottawa and provincially;
2. **Operations Planning in Ottawa** – what are the intentions, what is the timing, what are the impacts – how can we assist pro-actively and reactively;
3. **Current Criminal Investigations**: Status of OPS investigations and specific focus – impact upon the leadership and any outcomes to be exploited strategically. I know that OPP D/Insp Collins has currency on this from OPS Insp Dunlop;
4. **Ongoing Intelligence Operations**: Candid discussion of the leadership of the civil unrest, their intentions, the impact to public safety, operational opportunities – we need to increase access to information;
5. **Investigative Opportunities**: I believe that we have some opportunities available to us which will expand access to information and focus on the strategic plans of a leadership cadre that appears to be engaged in a conspiracy to commit mischief at minimum; and
6. **INSET:** Are there any actions on this file that INSET is acting on.

OPP POIB is of the opinion this movement has support, commitment and longevity in terms of impact. While diminution of mandates may impact the numbers of followers, it will not end the intentions of the committed cadre whose intentions are broader. We wish to solidify and investigative strategy.

If you are in agreement, I would like to have initial discussions asap (today?) with a teleconference and perhaps a meeting tomorrow in Ottawa. Please let me know if you are in agreement.

Pat

Subject: Intelligence Overview of HENDON - Dissemination to Partners - Confidential

Deputy and Commissioner,

The discussion of intelligence operations (and subsequent police action) in relation to these events, the conversations with Chief SLOLY and the public comments regarding "intelligence failure" provided me pause for reflection on our organizational actions in relation to this activity – activity once sporadic and localized and now so prominent in the public eye. I wanted to review what we knew, when we knew it, what we did with it and to whom it was provided. Intelligence failures occur and they come in many guises – failures to collect, failure to consume, failure to act, etc.

To better understand, I reviewed our actions – stakeholder identification, tasking, collection, analysis, intelligence production, consultation with partners and dissemination. I should also mention that part of my focus was/is preparation for the in-camera presentation to the Ottawa Police Service Board tomorrow. Thus, I wanted to provide you with following information:

1. POIB first **reported on the FREEDOM CONVOY on 2022-01-13 HENDON report.** It was in HENDON reports on the 13th and subsequently on the 20th. By the 20th we recognized that this event had the potential to raise significant public safety concerns – in Ottawa specifically.
    a. Since that time POIB has provided: **26 Strategic Intelligence Reports to our clients, including OPS,** on this matter.
    b. *I have reviewed all reports from 13 January to 29 January to review what we did provide to prepare clients. It is attached and is color-coded RED, YELLOW and BLACK in terms of relevence.*
2. **On 21 January 2022, the issue was deemed so significant that POIB initiated a HENDON Teleconference** with all Partners on this subject specifically. The purpose was to raise awareness and stimulate more collection.
    a. **Since that time POIB has hosted 23 HENDON teleconferences on this topic specifically;**
    b. **Further POIB hosted specific teleconferences (including today on investigative strategies);**
3. **POIB provided 3 Tactical Intelligence Reports to OPS:**
    a. 2 on the leadership of the organization disseminated on January 24th to OPS;
    b. 1 on Operational Security concerns to OPS on 9 February as concerns became apparent;
4. **POIB Deployed Operational Assets on ground on 29 January** to assist OPS and garner intelligence:

a. These reports have resulted **in 3 Operational Intelligence Reports** focused on 8 locations and certain individuals – all disseminated to OPS;
b. The 4th report will be completed tomorrow;

5. **POIB provided 2 Frontline Bulletins** – 1 general for officer safety and awareness and 1 specific to an individual – disseminated to OPS and all partners on 2022-01-26.
6. **POIB addressed 5 specific questions, in relation to 4 locales, for Chief SLOLY personally and provided a spreadsheet on rallying points to guide collection.**
7. **POIB has provided numerous POI profile sheets of individuals, groups etc.**

It is not my intention to utilize this information to embarrass anyone or any agency –it was completed to be a personal review to ensure that I was certain of the information and its usage.

I should also mention that there was a serious complication in relation to these activities: These individuals and entities are not, for the most part, participating in the realm of criminal activity. Most from Vancouver to Ottawa have engaged (as they said they would) in the lawful sphere – the arrests from Windsor to Ottawa illustrate this. So the balance of civil liberties and public safety/crime prevention – not to mention pro-active intelligence targeting – is a sensitive one. Especially in these politicized times.

I am very confident in your support for POIB and the OPP in general – I felt it and it was communicated to me this weekend. And that has been extended to all of our members today. just wanted you to be assured in terms of what we have done and what we are doing. Currently, Insps Barclay and Walker and D/S/Sgt MacAlister are in Ottawa to enhance our investigative strategy – and our analysts have been outstanding in this sphere.

Subject: HENDON - Operational / Managerial Matters

Hello Everyone,

Due to some matters of operational security concerns, I have created this DL of Intelligence Managers (OICs and 2ICs). Just wanted to send a quick message prior to our call. Obviously the situation has altered demonstrably in the last few days and there are/will be implications:

1. Top priority (for us in OPP) is to acquire any/all intelligence to assist OPS and the police resources in relation to the activity there;
2. Assessing general and local response by "activists" in response to any police action – some will withdraw due to perceived consequences but some will harden their resolve;
3. **Focus on Critical Infrastructure:**
    a. We must be lightning quick on acquiring any/all information or intelligence in relation to threats against critical infrastructure;
    b. Highlights on **Airports; Ports of Entry/Border Crossings; Rail Lines; Highways;** etc; Police responses need to be quick to prevent growth and/or fortification;
4. We are working on an **investigative strategy** in relation to this activity and will convene a call of managers at the appropriate time – probably next week;
5. **Sources of information:** If you have any information on any individuals that you believe are key players in the criminal sphere of this activity, or have access to it, we would really like to have a confidential and candid discussion at that time.

Thank you
Pat

Morning Pat, Mark

Just wanted to close the loop on the inquiries via our K Div counterparts. We are looking to secure more formal reporting for use. One of my analysts secured the below information via open source. As soon as we get something formal we will send it your way

Most of the accused face charges of mischief to property over $5,000 and possession of a weapon.

Three also face an additional charge of conspiracy to murder with one man also charged with uttering threats.

Prosecutor Steven Johnston and defence lawyer Yoav Niv have made arrangements for most of the accused to be released on bail. Those facing conspiracy to murder charges must have a bail hearing before a superior court judge at a later date.

The protesters facing charges are:

[redacted]

- Mischief to property over $5,000.
- Possession of a weapon.

[redacted]

- Mischief to property over $5,000.
- Possession of a weapon.

I have spoken directly and candidly with OPS (I have cc's the OIC of Intel Mark Patterson) about their immediate goals in terms of planning, public order, intel ops and criminal investigations. That is what I would refer to as Stage 1 of police action.

In terms of a Stage 2, we are seeing now is a heightened security posture in relation to planning and communications by a leadership group that we assessed January 21-24th. They are evolving with some alteration in personnel. No Emergency Act, nor end to vaccine mandates or passports, will alter their resolve but it may alter their tactics. I believe that we are dealing with a broad-based conspiracy to commit mischief in pursuit of their goals – which are broad. I believe that we have a great deal of intelligence to speak to this. I do not believe that we can speak to all the elements of the offence with evidence. I would like to suggest an intelligence probe to pursue this avenue of thought. It is cited in Point 5 of the agenda I cited in a meeting with key stakeholders yesterday. This would be an intelligence probe but it would require close coordination. I have two excellent Inspectors (Brian Barclay and Jim Walker) in Ottawa currently to meet with OPS – we have been closely linked with them in terms of information sharing toward their specific goals. But even when those goals are met successfully, we will be left with heightened potential for a continuation of activity by a committed cadre. I would really like to discuss this. Also, I was wondering if you could provide the relevant information in relation to the Coutts arrest. This is relevant to our tasks here and ascertaining any enhanced public safety and officer safety threats.

Perhaps we could have a discussion on Thursday?

Subject: Civil Unrest - Moving Forward

Hello Matt, Dave and Peter,

I hope all is well with you guys – I have spoken with Dave a fair bit recently. I am emailing the three of you to cover all aspects of RCMP investigative activity including both intelligence probes/operations or criminal investigations. I imagine that the invocation of the Emergency Act, the situation in Coutts Alberta and the evolving situation in Ottawa may alter some approaches and perspective in relation to role and responsibilities. As you are aware, the OPP and HENDON have acquired a fair bit of information and produced a great deal of intelligence in relation the current situation in Ottawa – and the several other issues that Ontario has experienced since January 29th. In fact, last night I reviewed all documents to reassess the common intelligence picture.

To: 'smcgowan@ola.org'; 'smeeks@bellevilleps.ca'; 'stephen.garrow@t3ps.ca'; 'tbrett@sfps.ca'; 'tferguson@stratfordpolice.com'; 'thierry.peano@spvm.qc.ca'; 'todd.fox@wtps.ca'; 'trandell@dryden.ca'; 'tricia.rupert@t3ps.ca'; 'trobertson@northbaypolice.on.ca'; 'twestlake@woodstockpolice.ca'; Walker, Jim (OPP); Wilks, Travis (OPP); 'wshawnoo@apscops.org';

Subject: HENDON - Operational / Managerial Matters

Hello Everyone,

Due to some matters of operational security concerns, I have created this DL of Intelligence Managers (OICs and 2ICs). Just wanted to send a quick message prior to our call. Obviously the situation has altered demonstrably in the last few days and there are/will be implications:

1. Top priority (for us in OPP) is to acquire any/all intelligence to assist OPS and the police resources in relation to the activity there;
2. Assessing general and local response by "activists" in response to any police action – some will withdraw due to perceived consequences but some will harden their resolve;
3. **Focus on Critical Infrastructure**:
    a. We must be lightning quick on acquiring any/all information or intelligence in relation to threats against critical infrastructure;
    b. Highlights on **Airports; Ports of Entry/Border Crossings; Rail Lines; Highways;** etc; Police responses need to be quick to prevent growth and/or fortification;
4. We are working on an **investigative strategy** in relation to this activity and will convene a call of managers at the appropriate time – probably next week;
5. **Sources of information**: If you have any information on any individuals that you believe are key players in the criminal sphere of this activity, or have access to it, we would really like to have a confidential and candid discussion at that time.

Thank you
Pat

Patrick J. Morris

Hello Matt, Dave and Peter,

I hope all is well with you guys – I have spoken with Dave a fair bit recently. I am emailing the three of you to cover all aspects of RCMP investigative activity including both intelligence probes/operations or criminal investigations. I imagine that the invocation of the Emergency Act, the situation in Coutts Alberta and the evolving situation in Ottawa may alter some approaches and perspective in relation to role and responsibilities. As you are aware, the OPP and HENDON have acquired a fair bit of information and produced a great deal of intelligence in relation the current situation in Ottawa – and the several other issues that Ontario has experienced since January 29th. In fact, last night I reviewed all documents to reassess the common intelligence picture.

I have spoken directly and candidly with OPS (I have cc's the OIC of Intel Mark Patterson) about their immediate goals in terms of planning, public order, intel ops and criminal investigations. That is what I would refer to as Stage 1 of police action.

In terms of a Stage 2, we are seeing now is a heightened security posture in relation to planning and communications by a leadership group that we assessed January 21-24th. They are evolving with some alteration in personnel. No Emergency Act, nor end to vaccine mandates or passports, will alter their resolve but it may alter their tactics. I believe that we are dealing with a broad-based conspiracy to commit mischief in pursuit of their goals – which are broad. I believe that we have a great deal of intelligence to speak to this. I do not believe that we can speak to all the elements of the offence with evidence. I would like to suggest an intelligence probe to pursue this avenue of thought. It is cited in Point 5 of the agenda I cited in a meeting with key stakeholders yesterday. This would be an intelligence probe but it

would require close coordination. I have two excellent Inspectors (Brian Barclay and Jim Walker) in Ottawa currently to meet with OPS – we have been closely linked with them in terms of information sharing toward their specific goals. But even when those goals are met successfully, we will be left with heightened potential for a continuation of activity by a committed cadre. I would really like to discuss this. Also, I was wondering if you could provide the relevant information in relation to the Coutts arrest. This is relevant to our tasks here and ascertaining any enhanced public safety and officer safety threats.

Perhaps we could have a discussion on Thursday?
Pat

1. Roles and Responsibilities of our Organizations and Personnel moving forward in Ottawa and provincially;
2. Operations Planning in Ottawa – what are the intentions, what is the timing, what are the impacts – how can we assist pro-actively and reactively;
3. Current Criminal Investigations: Status of OPS investigations and specific focus – impact upon the leadership and any outcomes to be exploited strategically. I know that OPP D/Insp Collins has currency on this from OPS Insp Dunlop;
4. **Ongoing Intelligence Operations: Candid discussion of the leadership of the civil unrest, their intentions, the impact to public safety, operational opportunities – we need to increase access to information;**
5. **Investigative Opportunities: I believe that we have some opportunities available to us which will expand access to information and focus on the strategic plans of a leadership cadre that appears to be engaged in a conspiracy to commit mischief at minimum; and**
6. INSET: Are there any actions on this file that INSET is acting on.

Cc: Barclay, Brian (OPP); Walker, Jim (OPP)
Subject: HENDON PARTNERS - IMPORTANT re SECURITY PROTOCOL

HENDON Partners,

HENDON has been exceedingly successful due to the perhaps unprecedented collaboration and cooperation of intelligence professionals across the country on issues of importance to public safety. With recent events the engagement on the HENDON TC has grown demonstrably as has the Distribution List. HENDON's success, however, is a product of the free flow of INFORMATION among intelligence professionals. This INFORMATION is utilized as a critical input to the intelligence process. The resultant INTELLIGENCE is provided in the HENDON intelligence report. This INTELLIGENCE can be utilized by partners – the only request or demand is that the restriction levels and caveats are adhered to. The document is Protected B and the caveat is THIRD PARTY RULE. This is cited on each page of the report in red font.

This project has endeavored to be incredibly open, responsive, transparent and inclusive of any/ all intelligence units wishing to participate. Further, it has attempted to disseminate broadly to increase awareness. But I am exceedingly concerned that the recent activity has heightened interest and has relaxed professional protocols. I am sending this email to re-confirm protocol and establish alterations to ensure security and integrity in the intelligence process. Please be assured that our goal is to create the best, the hardest intelligence, possible based on the information available at any given time. Further, it is our goal to provide the intelligence product (not the uncorroborated information) to intelligence clients to assist in decision-making.

1. We will review the HENDON TC list and ensure that only intelligence personnel are on the call;
2. We will prevent persons from calling in post 1100 hrs – this is for purposes of operational security, courtesy and to facilitate conversation;
3. We will work to implement a password system for this call;
4. We will review the HENDON Distribution List to ensure that recipients are active participants, contributors and/or clients.

I am taking these steps to increase the security of our discussions as we engage in our intelligence tradecraft. These are 'interesting times' to say the least for our country and our profession. We all hope to ensure that the speed, flow and direction of our activity is appropriate to the tasks before us – and that a perceived urgency does not preclude our professional commitment to evaluation, analysis and judgement in our assessments. Lastly, I will be sending a specific request to each agency to determine if these reports are being further shared – the caveat is clear – it is intended for the "attention of selected law enforcement intelligence units and is not to be disseminated further without the approval of the Director, or designate, Provincial Operations Intelligence Bureau. I am taking this step to ensure security and appropriate distribution.

Thank-you everyone,
Pat

Patrick J. Morris
Superintendent
Bureau Commander, Provincial Operational Intelligence Bureau

Late yesterday, CCT met to discuss an opportunity to seek a TB/MBC In-Year submission to ask for resources to better prepare the organization when faced with an emergency response.

You were identified as a lead to support this submission.

An In-Year submission is very similar to the MyP process, which many of you will be familiar with. We are considering the approach that was taken in this year's MyP process to have a consolidated ('omnibus') submission.

While you are a lead, you may be asked to identify a supporting SME to assist with the technical writing required for completing this submission. BMB will address financial/procurement elements. You/your teams may also need to confer with fellow police stakeholders on what their models are.

Note that this is an extensive submission with tight timelines and will very likely require support from you/your teams over the weekend to finalize a draft for submission to the Commissioner **for Monday.**

Attached is a preliminary summary of items being considered, subject to edit based on CCT input. SharePoint will be used for centralized access with a link to be shared out this afternoon.

OPP Enhanced Emergency Resp...

Hoping to meet today to discuss a plan for taking this on.

Cc: McCallum, Bradley (OPP); Scherer, Gerald (OPP); Chalk, Tina (OPP); Alakas, Daniel (OPP); Abrams, Craig (OPP)
Subject: Enhancing OPP's Emergency Response Resources

Kari, Paul and Pat,

CCT had a meeting yesterday to discuss an opportunity that has been presented to put together a package for government in relation to what we might need (FTE and ODOE) to enhance our ability to respond to emergent situations. Yesterday afternoon we discussed the following items;

- Expansion of ERT/POU as quick response teams;
- Updated POU personal protection equipment;
- Increased capacity of EMU to develop and exercise annual operational plans at high-risk critical infrastructure, and maintain the EOC;
- Heavy tow and bussing capacity;
- Tethered RPAS; and,
- PLT, INTELL and designated Crime resources.

As part of the conversation I emphasized the need to ensure that support services within IOC were also considered and I listed a few – FIS, Digital Forensics, Cyber. One other area I forgot to mention was PAFU, which I believe needs to be given consideration.

Also, as part of the conversation I offered up some subject matter expertise, specifically Supt. Brad McCallum, Supt. Pat Morris and D/Supt. Tina Chalk to provide input and guidance around the crime, crime support and intel piece. Today I have included D/Supt. Gerald Scherer to the list as the SME for PAFU and perhaps other areas of OCEB that need to be considered.

It is my understanding the Supt. Alakas and Supt. Abrams are the Executive Leads on this but they will certainly need our help and guidance and it is also my understanding that there is a very tight timeline in terms of pulling all the information together.

I totally understand if you want to identify different SME's to support this cause. Please ensure Dan and Craig are advised.

Thank you,

C.E.J. (Chuck) Cox
Deputy Commissioner
Investigations and Organized Crime Command
"Protecting Citizens, Upholding the Law and Preserving Public Safety"
